ARTIFICIAL LIMBS.

WITH RUBBER HANDS AND FEET.

Thirty-three Years of the most extensive experience, with the most satisfactory results of any manufacturer in the world. The confidence of the public popularity among the crippled, and flattering commendations from all parts of the world, attest the superiority of the Rubber Hand and Foot, which possess the quality of yielding to every essential angle of the natural, without the use of complicated hinges, joints and contrivances, which only annoy and render expensive their daily use.

ances, which only annoy and render expensive their daily use.

The accompanying cut represents a young man who lost both legs by a R. R. accident, one above the knee and the other two inches below. He is able to walk one-half mile in S minutes without a cane or any assistance except his artificial limbs with rubber feet, lie can perform a day's work without unusual fatigue, can go up and down stairs; in fact can do any of the ordinaries of life without exhibiting his loss.

ARMS restore the appearance and assist greatly in the performance of labor.

Iliustrated pampillet of 160 pages Sent Free. Also a NEW SYSTEM of MEASUREMENTS by which limbs can be made and sent to all parts of the world with GUARANTEED SUCCESS, without requiring the presence of the patient.

BLACKMAN'S PATENT

Power Ventilating Exhaust

BLAST WHEEL.

The Special Feature of our Wheel is the Peripheral Flange or End Bucket.

Its Wonderful Ability is due to the Peripheral Flange.

The Blackman Wheel is the only exhaust or blast wheel (or fan) known which takes in air at right angles as well as parallel with its axis or shaft. The Peripheral Flange in the Blackman Wheel gives it an additional feed or supply area of sixy-six (66) per cent. greater than any other form of wheel. The amount of air moved and power required has relation to the area of the feed and delivery surfaces or orifices in any and all air-moving machines. The entire surface of the Blackman Wheel, front and back and sides, is either feed or delivery, and therefore giving the greatest volume at the smallest outlay of power.

Being constructed on this new principle, it makes now possible, for the first time, the economical and satisfactory ventilation of

Public Halls, Banks, Theatres, Grain Elevators, Flour Mills, Factories, Paper Mills, Malt Houses, Vessels, Breweries, Mines, Hotels, Restaurants, Engine Rooms, Laundries, Printing Offices, Sewers,

And any place where it is desirable to remove Foul or Hot Air, Smoke, Steam, Gas, or other objectionable matter, and also to lower the temperature of any room or building.

Because of these new factors possessed by the Blackman Wheel, air is moved at the rate of 16,000 cubic feet per minute, or nearly one million per hour for each actual horse-power employed.

Prices for Exhaust Wheels and Estimates for Ventilation given on application. CORRESPONDENCE SOLICITED.

Instructions to Key Holders.

Alarms must be given from the box nearest the location of the fire. To give an alarm: unlock the door, pull down the crank once, as far as it will go-firmly, without jerking-and let go. Shut the door and remove the key.

Persons giving fire alarms are requested to remain by the box a moment, and if no clicking is heard in the box, pull again. If you still hear no clicking, go to the next nearest box, and give the alarm from that.

Never let the key go out of your possession, unless called for by the Chief Engineer or Superintendent of Telegraph.

Alarms will be sounded upon the fire bells thus: For box 34 three strokes, I-I-I, and pause; then four strokes, a pause; and repeating. Alarms for other numbers are given in like manner.

Don't give an alarm for a fire seen at a distance, as it will lead the department in the wrong direction.

J. B. CARRIER, Supt. Telegraph.

City By-Laws.

Section I. Any person who shall wilfully deface, injure, or destroy the fire alarm telegraph in the City of Norwich, or any part thereof, or any of its appurtenances; or shall wilfully interfere with the same; or shall in any manner obstruct, prevent or delay the proper and timely use thereof, shall, for every such offense, forfeit and pay for the use of this city a fine not less than twenty, nor more than one hundred dollars.

Section 2. Any person who shall open any alarm box connected with the fire alarm telegraph in this city, except by authority of, and by the keys furnished by the Chief Engineer of the fire department of the city, shall, for every such offense, forfeit and pay to and for the use of this city, a fine of not less than twenty, nor more than one hundred dollars.

NORWICH FREE ACADEMY.

93 CRESCENT STREET.

The Norwich Free Academy was incorporated in May, 1854, having been endowed to the amount of about \$100,000 by the gifts of a few generous citizens of Norwich. Of the whole amount raised, \$50,000 was reserved as a fund for the maintenance of the school, and with the remainder a lot was secured fronting Williams park, and a noble school edifice erected. The productive funds now amount to \$153,056. Besides this, there is the Peck Library fund, \$5,850, to which an addition of \$5,000 has recently been made; the Newton Perkins Medal fund, 1,000; the Williams Prize fund, \$1,000; building and grounds, \$58,700; furniture and apparatus, \$5,883, making, in all, \$231,489 contributed to the permanent support of the Academy since the spring of 1854. The grounds are unsurpassed by those of any similar institution in the country. Connected with the Academy is the Peck Library, founded by the late Mrs. Harriet Peck Williams, wife of the late Gen. Wm. Williams. In 1869 Mrs. W. P. Greene

donated to the Academy a valuable house and lot on Broadway for the residence of the principal of the institution. The Williams homestead, by the death of Mrs. Williams, has recently come into the possession of the trustees. The school has excellent apparatus for illustrating the natural sciences; and familiar lectures, with experiments, are given each term in these branches. There is also an excellent mineralogical and geological cabinet, and a collection of ancient and modern coins; and a herbarium, illustrating the flora of the region has been begun.

By a donation from J. Newton Perkins, Esq., a handsome bronze medal has been established in each of the following departments, viz: Latin and Greek, Mathematics, Natural Science, Chemistry, Declamation, English composition, English studies, Modern languages, Drawing, and Music. A fund amounting to \$1,000, to be called the Williams fund, was given in 1869 by the late Mrs. Gen. Williams, the income of which is to be distributed yearly in three prizes: one for Book-keeping, one for Reading and one for Letter writing.

Pupils of both sexes are admitted to the Academy. Each pupil pays five dollars a term for incidental expenses, and there is in addition, a charge of ten dollars for tuition to non-residents only.

During the present year (1886) it is expected that the Slater Memorial Building will reach completion. This has been erected by Mr. William A. Slater in commemoration of his father, John F. Slater, Esq., for many years a trustee of the Academy. It is a building of great beauty, in its exterior and interior, and contains, beside two large halls—one designed for use on anniversary and other public occasions, the other to serve as a museum—, a room for the Peck Library and several recitation rooms.

Public Libraries.

OTIS LIBRARY, CORNER CHURCH AND BROADWAY.

The Library was established in 1848 by the late Joseph Otis, at an expense of about \$10,000, of which \$6,000 was for the lot and building, and \$4,000 for books. In addition to this, Mr. Otis, at his death, bequeathed a fund of \$7,000, (which remains intact) the income of which was to be devoted to the purchase of books. A very liberal charter was granted by the State, and the management of the Library vested in a self-perpetuating board of seven trustees. The funds were added to, later, by the donation of \$1,000 by Mr. Chas. Boswell, of West Hartford, a native of Norwich. Other friends have, from time to time, given valuable aid in money, and volumes from their private collections. The library contains over 14,000 well selected volumes. It also subscribes for more than forty leading American and foreign magazines and reviews. Many duplicates of popular books and magazines are bought, and these can afterwards be purchased at the very lowest rates. Catalogues can be consulted at the Library, especially the card catalogue, which is continually receiving

new cards as new additions are made to the volumes on the shelves. Fresh additions, of best recent fiction, and of good books for children, are always to be had. The trustees intend to purchase all new works of popular interest as they appear, (avoiding, however, novels and juveniles which are bad in their moral teaching); and are also continually adding standard works of permanent value in the various departments of literature, science and art. The Library should contain every memorial, whether book, pamphlet, map, broadside, print, photograph, or the like, which is procurable, and which in any way illustrates the history or topography of Norwich; and it is hoped that the friends of the Library will assist in making the collection com-

For full privileges of the Library, including two books and a periodical at a time, the annual charge is \$3. For two books without periodicals, \$2; one book alone, \$1; periodicals, only \$1. Books and periodicals are also let at two cents a day, or ten cents a week. The most popular new books can be kept seven days; all others fourteeen days, with privilege to renew. The librarian, upon request, will reserve any book one day, and give notice by postal card when it comes in. Books will also be delivered, or called for, in any part of the city at a small charge. Any desirable book not in the Library will be purchased at the request of the subscriber, if the funds of the Library will admit.

The Library is open daily (Sundays excepted) from 10 A. M. to 8 P. M., and on Saturday till 9 P. M. Tuesdays and Thursdays close at 6 P. M. This is double the number of hours per week which the Library had previously been open, the trustees having made this new departure in the hope that the public will appreciate their opportunity, and, through greater use of the institution, more than make good the large additional expense involved. The subscribers should be increased from about four hundred, as at present, to three times that number.

The Library has recently been furnished with a card catalogue made in accordance with the plan adopted by many of the first libraries in the country.

Within the past two years it has begun to receive income from the munificent bequest of nearly thirteen thousand dollars by the late Dr. Daniel T. Coit.

Trustees: Wm. A. Aiken, Wm. S. Palmer, Jonathan Trumbull, E. N. Gibbs, Wm. A. Slater, F. T. Sayles.

Rates of Postage: First Class—Embraces letters, postal cards, and all matters wholly or partly in writing. Rates: letters, two cents each ounce or fraction; postal cards, one cent each; drop letters, two cents each.

Second Class—Applies to newspaper publishers and news agents. Rates: two cents per pound or fraction thereof; publications must be issued at stated intervals—matter to be fully paid.

Third Class—Shall embrace books, transient newspapers, periodicals, circulars, and other matter in print; proof sheets with manuscript copy, corrected proof sheets accompanying the same. Rates: one cent each two ounces or fraction—matter to be fully paid.

Fourth Class—Embraces blank books, blank cards, chromo lithographs, lithographs, photographic views, paper, printed blanks, cards and stereoscopic views, card board and other flexible material, letter paper, samples merchandise, models, samples cards, seeds, cuttings, bulbs, roots and scions; samples ores, metals, minerals and merchandise. Weight in the above limited to four pounds. Rates: one cent each ounce or fraction.

Matter of each class must go at its own rate. The putting of two classes together will subject the package to the higher rate, invariably.

Registration: Valuable letters should invariably be registered; or if money is to be remitted, a money order procured. Never enclose money or valuables in an ordinary letter.

Foreign: On letters to all parts of Azores, Austria, Hungary, Belgium, Denmark, France, Germany, Great Britain and Ireland, Greece, Italy, Luxembourg, Montenegro, Netherlands, Norway, Portugal, Roumania, Russia, Servia, Spain, Sweden, Switzerland and Turkey, and other countries in the postal union, five cents per half ounce or fraction thereof; pre-payment, except on registered letters,

optional. Foreign postal cards can be procured at the post office. On newspapers, one cent each, provided they do not weigh more than two ounces each. Full pre-payment on all foreign matter, except letters, compulsory. Coin, jewelry, and articles subject to custom's duty, are excluded from all foreign mails. Rates of postage to foreign countries other than above, being subject to change every month, inquiry should be made at the stamp window for ruling rates before mail matter is deposited in the post office. All mail matter, except letters, must be so wrapped or enveloped with open sides or ends, that their contents may be readily and thoroughly examined by postmasters, without destroying the wrappers; but seeds and other articles, liable from their form or nature to loss or damage unless specially protected, may be enclosed in unsealed bags or boxes, which can be readily opened for the examination of their contents, and reclosed; or sealed bags made of material sufficiently transparent to show the contents clearly without opening, may be used for such matter.

Stamped Envelopes: The attention of the public is called to the advantage of using stamped envelopes rather than postage stamps. Daily, number of letters are dropped in the post office without prepayment, with revenue stamps, and stamps cut from stamped envelopes affixed, which are held for postage; whereas, by the use of stamped envelopes these letters would go forward without delay. Persons purchasing stamped envelopes of any denomination, in quantities of 500 and upwards, may have request to return in a specified time printed thereon, not to exceed four lines, free of charge. All stamped envelopes damaged by having been improperly addressed, or otherwise, will be redeemed at this office, provided the stamps thereon have not been effaced.

HACK ORDINANCE.

CONCERNING RATES OF FARE.

SEC. 7. The prices or rates of fare to be taken by or paid to the owners or drivers of hackney coaches or carriages shall be as follows: between the hours of six o'clock A. M. and eleven o'clock P. M., for conveying a passenger to and from any point in the city, he may receive for one mile, or less than one mile, fifty cents; and for each additional passenger to and from the same points, the sum of twenty-five cents. He may receive for more than one mile, and less than

one mile and-a-half, seventy-five cents; and thirty-five cents for each additional passenger to and from the same places. He may receive for more than one mile and-a-half, to any point within the city, the sum of one dollar; and for each additional passenger, from and to the same places, fifty cents. Between the hours of eleven o'clock P. M. and six o'clock A. M., he may be entitled to demand and receive double the above rates. For a carriage to or from a funeral, two dollars and fifty cents. For a carriage to a wedding, to and from any church in the city limits, two dollars and fifty cents. For a carriage to and from a railroad depot, on arrival of steamboat train from New York, three dollars. Children between six and twelve years of age, half-price; and under six years of age free. For a carriage by the hour, one dollar and fifty cents; for a sleigh by the hour, two dollars, and at that rate for succeeding fractions of an hour.

- SEC. 8. Every driver or owner of a hackney coach, or carriage, or cab, shall carry, transport and convey, in and upon his coach, carriage or cab, in addition to the person or persons therein, one trunk and carpet-bag, or hat-box, or if he be requested so to do, for each passenger, without charge or compensation therefor; but for every trunk more than one for each passenger, he shall be entitled to demand and receive the sum of ten cents.
- SEC. 9. The driver of each and every carriage shall take the baggage from the carriage and place it upon the steamboat, or in charge of the baggage-master at the railroad depot, without extra compensation.
- SEC. 10. The driver of each and every carriage shall deposit the baggage of his passenger or passengers in the house designated, without extra charge.

Dime Savings Bank of norwich,

40 MAIN STREET.

ORGANIZED SEPTEMBER, 1869.

Deposits, May 1, 1886, \$1,265,000.00

All sums received from Ten Cents to One Thousand Dollars. Deposits are placed on interest the first of every month. Every six months, in May and November, a dividend is made on all deposits of One Dollar and upwards, which have been on deposit not less than one month previously. Dividends are immediately added to the principal, under date of May I and November 1, thus securing compound interest.

Artesian or Driven Wells.

All orders for Wells for Domestic, Farm, Manufacturing or any other Purposes will Receive Prompt Attention.

We are prepared to sink Wells 6 or 8 inches in diameter through Earth or Rock to One Thousand feet or less, by Steam Power.

Many of these Wells are being used at Breweries and other manufactories where cool water is needed and the soil is hard and rocky.

Sand and Vacuum Chamber, for Artesian or Driven Wells.

Patented Sept. 11, 1877, No. 195,051; - - - July 27. 1880, No. 320,579.

We claim for our Sand and Air Chambers that there is no better in the market; warranted to stop sand or money refunded. The sand is retained in the bottom of chamber, and can be removed by taking out the plug at the bottom, tripping the pump, and running water through it.
